PROJECTS

Food delivery website

📅 01/2025 📍 ghaziabad

I am working on full stack project of food delivery website

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

Smart waste management

📅 11/2024 📍 ghaziabad

I developed a smart waste management system integrating IoT, AR/VR, and blockchain technologies. The system includes a smart dustbin that monitors waste levels and optimizes disposal processes. AR/VR enhances user interaction, while blockchain ensures secure and transparent waste tracking. This innovative solution promotes efficient and eco-friendly waste management

- I participated with my team for this project in college hackathon
